

The Curriculum at Key Stage 3

At **Key Stage Three** we offer a broad variety of subjects, building the passion pupils have of subjects at primary schools. Pupils will secure an important breadth of knowledge and understanding before starting to study GCSE and vocational qualifications.

Pupils will study

Core and Foundation	Technical & Vocational	Ebacc
English Mathematics Science Physical Education Personal, Social, Health and Ethics	Technology Information Communications Technology Digital Literacy Art & Design Music Drama	Geography History Spanish

The Curriculum at Key Stage 4

At **Key Stage Four** pupils continue to study core and foundation subjects but begin some specialisation of learning, which is matched to their interests, aptitude and consideration of their desired career pathways. Pupils will have access to an ambitious range of academic, technical and vocational routes. During the options choice, pupils will be guided through a personalised path by receiving comprehensive and considered guidance regarding appropriate study choices. The subjects they choose will come from a selection of academic, technical or vocational subjects that will meet our pupils' interests and enable them to access their choice of further study, training or work when they move on, to ensure that they have the tools to succeed in their next steps in life.
